

Meet your Tutor

KUDZAIISHE CHIKWATURE

Hi, I'm Kudzaiishe! I am a self-motivated individual who firmly believes that anyone can accomplish anything if they wholeheartedly apply themselves to their goals, which is exactly why I got into tutoring. Too many students suffer from a lack of confidence, feeling like they aren't "good enough" simply because they haven't reached their targets yet; I used to be in that exact same box until someone believed in me and pulled me out, and now I feel it is my responsibility to pay it forward.

Because of this, my tutoring goes far beyond just academics, expanding into core life values like self-belief, consistency, and discipline. My ultimate goal is to help my students build genuine self-confidence, establish functional, disciplined study systems, and prepare themselves for the road ahead. When I'm not helping students unlock their full potential, I am a full-time Computer Science student at the University of Pretoria, a massive football fan who plays the sport regularly, and a heavy cooking enthusiast who loves spending time experimenting in the kitchen or diving into coding projects.
