

Meet your Tutor

LUCO VAN DER WALT

Hi, I'm Luco. With a passion for helping others learn and grow, I strive to create a positive and encouraging environment where every student can build both knowledge and confidence. My goal is not only to improve academic performance but also to inspire confidence, resilience, and a genuine love for learning. I graduated cum laude with a degree in Industrial Engineering from the University of Pretoria in 2025. Alongside my studies, I have had the privilege of captaining the Tuks 1st Cricket Team, an experience that has strengthened my leadership, discipline, and ability to mentor others both on and off the field.

Outside of tutoring, I enjoy spending time in the outdoors through fishing, hunting, and birding, and I am also passionate about playing golf and tennis. Seeing young people develop their abilities, overcome challenges, and achieve their goals is one of the most rewarding parts of tutoring, and I look forward to making a meaningful difference in every student's journey.
