

Meet your Tutor

VANESSA MASHABANE

Hi, I'm Vanessa. I hold a Bachelor of Education degree from the University of Pretoria and have practical classroom experience in Life Orientation, Business Studies and Tourism. I've had the privilege of working with learners across different grades and learning needs, helping them strengthen their understanding while building confidence in their abilities. I believe tutoring should be patient, supportive, and tailored to each learner and how they learn best. My aim is not only to help learners improve academically, but also to help them grow in confidence and self-belief. Outside of tutoring, I enjoy reading, learning new things, and exploring educational technology. I'm passionate about inspiring learners to become curious and confident in their own learning journey.
