

## Meet your Tutor

# ASHLEY EBING

Hi, I'm Ashley. I matriculated from Durban Girls' College in 2023 and I am currently in my 3rd year of my undergraduate degree at the University of Pretoria majoring in Psychology and Sociology. My approach to tutoring involves helping the students to understand the main concepts of their work well and to teach them how to summarize large amounts of content, for subjects such as history or biology, and how to effectively learn from summarizing. Apart from tutoring, I have always been sport oriented and I have learnt how to juggle a busy training schedule as well as a heavy work load. I enjoy swimming, playing sport and reading. I also have an interest in art as a hobby.
