

Meet your Tutor

MEGAN BISHOP

Hi, I'm Megan! I am currently studying a Genetics Honours degree and have a strong passion for helping students build confidence in their academics. I offer tutoring in Afrikaans (First Additional Language), English (Home Language), Biology and Accounting for all ages, as well as Mathematics up to Grade 10.

My tutoring approach is highly personalised. I focus on understanding each student's individual learning style and adapting lessons to suit them so that they not only improve their marks but also gain confidence in their abilities. I aim to create a supportive and encouraging environment where students feel comfortable asking questions and developing their understanding. Outside of academics, I enjoy running, hiking, and spending time with my family and friends. I look forward to helping students reach their full potential and develop a positive relationship with learning
