

Meet your Tutor

Ben Tegner

Hey, I'm Ben. As someone who once struggled with certain subjects myself, I know how overwhelming school can feel at times. Having a tutor made a huge difference in my confidence and academic performance, which is why I'm passionate about helping other students reach their full potential. I'm currently in my second year of a BSc in Microbiology, so although I've finished matric, I still understand the challenges and pressures that students face. My goal is to create a supportive learning environment where students feel comfortable asking questions, building confidence, and achieving the best results they're capable of.
