

Meet your Tutor

ZIEKE VERMEULEN

Hi, I'm Zieke a third-year Accounting student with a passion for helping learners build confidence in Accounting and Business Studies. I tutor students from Grade 8 to Grade 11, focusing not only on improving marks but also on building a strong foundation that will support future studies. My tutoring approach is patient, and encouraging—I believe every student can understand these subjects with the right guidance and practice. I aim to create a comfortable learning environment where questions are always welcome and concepts are explained clearly. Outside of tutoring, I enjoy playing hockey and spending time with friends. I'm excited to help students discover that accounting and business can be both understandable and enjoyable.
