

Meet your Tutor

CARMEN BRAACK

Hi, I'm Carmen. I am a third-year Supply Chain Management student at the University of Pretoria with a passion for working with people and helping students reach their potential. I understand that everyone learns differently, which is why I adapt my teaching style to suit each student's individual needs.

I believe learning should be encouraging, engaging, and stress-free. My aim is not only to help students improve their marks but also to build their confidence and make them feel capable of tackling difficult concepts on their own.

Outside of tutoring, I enjoy spending time with family and friends, staying active, and continuously challenging myself to learn and grow. I am friendly, patient, and dedicated, and I look forward to helping students achieve their academic goals.
