

Meet your Tutor

JARED RYPSTRA

Good day. My name is Jared Rypstra, a third year Bcom Business Management student studying at the University of Pretoria. Academics has always been an important part of my life that I have focused on and worked hard on. However, I do believe that there should be a balance between work and relaxation. Everyone's brain is wired differently, and working with various students to help them understand how to work in such a way that suits their wiring is all I want to do. School can be very stress-inducing but my belief is that when you adapt learning to how your mind works and not just putting your nose in a book, school can become such a breeze. I am here to help wherever I can, and put in all the work necessary to create a confident student.
