

Meet your Tutor

NICOLE MAREE

Hi, I'm Nicole! I hold a BSc in Human Physiology, Genetics, and Psychology and am currently completing my Honours in Neurophysiology. My academic background has given me a deep understanding of the sciences, which I enjoy sharing with my students. I believe in making learning an engaging and positive experience, focusing on making complex ideas easy to understand. My goal is to help students feel comfortable with their subjects and reach their full potential at their own pace.
